Bears, who had been hammering wheat against them to-day. The weather was good over nearly all the wheat belt and sta- | new, steady at 51s. tistical journals issued bearishly favorable crop news, but receipts were very small and the cash situation was very strong. Cables also were comparatively firm when yesterday's depression was taken into account. After an early see-saw in prices bulls took hold firmly and worked advances. The cash situation has gradually developed a strength that the traders be- firm; cash, 44c; May, 42%c; July, 35c; Septemlieve will influence speculation for some time. Elevators have all the wheat in sight, the country is offering little and the elevator people have sold much of their holdings at July prices rather than at the lower May prices. The result has been a scarcity of cash wheat at the recently current May figure. To-day May prices in outside markets advanced above July and at | 72%c. Oats-Cash, 43%c; September, 30c. one time here almost equaled them. Added to this was a good corn strength. Good cash sales were made late yesterday, four teen loads being taken here for export. Shorts covered freely and July, which opened 1/01/4c to 1/0%c up, at 74%0741/46, sold up to 74%c and closed firm, %@%c up, at 74%c. Local receipts were twenty-three cars, none of contract grade; Minneapolis and Duluth reported 101, a total of 124, Primary receipts were 180,000 bu, compared with 352,000 last year. Seaboard clearances

in wheat and flour equaled 385,000 bu. Corn ruled strongest of the grains to-day and made good advances. Yesterday's slump was not resopnded to by the foreign markets, and, although all outside news on the crop situation was bearish, everything else in the situation favored the bulls. There is little old corn outstanding, receipts continue small and the leading bull house is credited with holding twice as much long corn as there is old stuff visible. After hesitating for a time at the opening, 'tallers" again took the bullish view of the market and bought liberally, shorts covered and then the bull leaders sent prices up farther by taking in stuff in good quantitles. There was an improvement in the eash situation which lent strength to the futures. Traders generaly regard the position of the bull party as such that at any open buying by it the crowd quickly follows. July early sold as low as 60%c, advanced to 61%c, and after some liquidation for profits closed firm. %2%c, up at 6140 61%c. Receipts were 135 cars. Oats showed strength and activity of their own. To-day the support was in evidence in almost all the leading stocks, but especially Southern Railway. During the afternoon, owing to rumors that the negotiations between the miners and the operators had been resumed, the coal stocks became notably strong and there was what is called good buying of Lackawanna and Delaware & Hudson. It was noticeable, however, that as soon as the manipulative buying ceased in the general market the advances also ceased and the market became extremely There is no doubt that the public is taking little interest in the stocks at present. Nor is it likely that outside business will increase to any extent as long as rates for money remain as high as they are in the rates in the near future is extremely improbable, owing to the condition of the New York banks and the enormous extent of our liabilities abroad. The only way in which these liabilities can be reduced is by the shipment of gold, and these shipments will have to be heavy before causing any considerable diminution of the inaddition some of our leading financiers have recently been acquiring various industrial
